FARMS AND FACILITIES FOR RETURNING SOLDIERS AND SAILORS.

By George L. Berry,

President International Printing Pressmen and Assistants' Union of North America.

The Secretary of the Interior, the Hon. Franklin K. Lane, has initiated and given life to the most important after-war measure yet to be considered by any of the governments of the Allied Nations, and that has to do with the subject of the reorganization of American agricultural life through the establishment of a system for the placing of returning soldiers and sailors upon the farm.

The plan contemplates the establishment of approximately a million homes and farms for our returning soldiers and sailors who desire to take advantage of the proposition. It is estimated that each farm, the house and facilities will approximate in valuation \$15,000.00, and upon this valuation it is estimated that the soldier will be required to pay not more than one or one and one-half per cent until he, through his own initiative, has reclaimed the property through systemmatical payments to the government. A period of years will be given to him for payment so that he may ultimately come into sole possession of the farm and buildings and all of the facilities established by the government.

Another important feature presents itself in the fact that the community-plan scheme is to be made effective which will render possible the economic

development and the scientific operation of the farm. An expert director in agriculture, fruit-growing and stockraising will be assigned to a given area, who will disseminate practical information to the occupant of the farm. It is intended and proposed that the states shall provide the lands in addition to the governmental domains, and the government is to build the houses, roads and all essention.

tials for successful agricultural opera-This great and far-reaching economic scheme that means so much for the future stability of our country is the result of the untiring efforts of Secretary Lane. His sympathy for such a meritorious and humanitarian undertaking is unquestionably largely the result of his lifelong association with the International Typographical Union and his honorary membership and association with the International Printing Pressmen and Assistants' Union.

The importance of this measure must be obvious to everyone. Its success will be due largely to Congressional action. Secretary Lane has the concept, but favorable consideration by Congress is of great importance. Every person interested in the passage of this bill that means so much to the workers of this country in the matter of the cost of living and the future prosperity of our nation should write to his Congressmen and Senators, urging their support of this proposal of Secretary Lane.

EDITORIAL

COLLECTIVE BARGAINING During the past few months, a great A LA ROCKEFELLER. deal of effort has been put forth by a

certain class of employers, to establish

what they term "Collective Bargaining" (?) between employer and employee. These efforts have been given wide publicity by the manufacurers' association, and the question is being generally asked, by the uninformed have those great corporations who have been so indifferent and hostile to their employee's welfare in the past at last experienced a change of heart? Are they beginning to realize that "Collective Bargaining" is the sane, rational and practical method of adjusting matters between capital and labor?

A study of the subject and methods proposed, discloses reasons for questioning the sincerity of purpose of those who have shown recent solicitude for their employee's interest, and also shows a great variance of method between the system of "Collective Bargaining" proposed by this class of employers, and the system which has long been advocated by the trade union movement.

The plan adopted by certain employing interests is patterned after the so-called Rockefeller Plan, which was instituted by John D., Jr., following the Ludlow Massacre. The preliminary and final influence that brought about its acceptance was the leaden oratory of machine-gun fire, that shot misery, fear and death into the ranks of the employees of the Colorado Iron and Fuel Company.

However, the employers who are now trying to install the system, are using somewhat different methods. Instead of machine-guns, they are endeavoring to win their employees by gentle sophistry, deceit and vague reference to our mutual interest.

How the Plan Works.

The employer most magnanimously consents to allow the employees to select by popular election(?), under supervision of company agents, such as superintendents, foremen, strawbosses, etc., representatives who may take up grievances of employees with their immediate superiors. Failing in adjustments, the employees' representative may then appeal in writing to the company's manager, or some other "higher up," who will review the case; his decision to be final and binding on all.

What a beautiful chance the employee has to obtain a fair and equitable adjustment of any meritorious grievance. The possibility is more remote than the probability of a democratic government under Bolsheviki rule in Russia, and can only result in bringing about industrial unrest and rebellion in the ranks of the workers.

The causes that have influenced employers to such a course are many and varied. Space will not allow detailing them all. The three principle reasons are:

First—The almost universal determination of employees to combine into labor unions, and the desire of employers to prevent such organization by a substitute plan they can control.

Second—The practicability, in fact the manifest necessity of collective

bargaining.

Third—The violation of agreements and the disregard of governing

laws on the part of unions, which have caused employers that have been dealing with their employees through the trade union methods, to doubt the responsibility of such unions, therefore, coming to the conclusion that

some other method is necessary if industrial peace is to prevail.

It is regrettable that those responsible for the management of some organizations of labor have such little respect for their own laws and agreements, that they openly violate them, and as a result bring discredit upon the labor movement. Such conduct only results in weaning away from the movement, public sympathy, as well as creating suspicion and distrust in the minds of those employers who are inclined to treat fairly with their employees, and recognize the labor movement as a suitable agency to carry on negotiations through.

Real collective bargaining can only prevail by employers dealing with their employees through responsible labor organizations. Once an agreement is entered into, both parties must respect its provisions in letter and spirit. If we hope for respect and sympathy from the public for the movement, we, ourselves must show respect for the obligations which our laws and agreements provide. By following such a policy, the labor movement can, and will easily discredit the advocates of the Rockefeller

plan, or any of its offsprings.

Trade unionists should ever keep in mind that a violation of contract is playing into the hands of the common enemy, who in many instances schemes and plans through their underground secret agents (who are very often the leaders you put confidence in) to cause strikes and industrial strife.

To avoid such situations, every member should realize the responsibility that goes with membership in a union, and they should watch over the interests of the union, and not allow some one else to do all the thinking for them.

There is little for organized labor to fear from organizations formed

by employers, as they fall of their own unfair practices.

The greatest danger confronting the movement is the failure of the individual member to display the proper interest in the organization, that stands between the toiler and industrial slavery.

The sooner the rank and file of organized labor awakens from their apathetic indifference, the quicker irresponsible leadership will be eliminated, industrial harmony established, and the schemes of designing employers curbed.

MORE
Now that the Electrical Worker has by his affiliation with PIRATES. the Railway Employees' Department and through a long line of battles secured something like a decent wage scale for the linemen and signalmen on the railroads, we find that suddenly the O. R. T. that had no use for them before now are busting their suspenders to claim jurisdiction over the telegraph linemen and repairmen and are making a wonderful drive on them, having nothing else to do. Pretty soft, after another organization has gotten the conditions for them. But the lineman or repairman should know that he is an Electrical Worker no matter where he might go to work. But the O. R. T. card is only good on a very few railroads and no backing behind it even there.

The Railway Signalmen are putting on the same drive after the I. B. E. W., got the first real wage scale ever obtained for signal men. The Brotherhood of Railway Signalmen of America, a wildcat organization that secured a charter over the protest of the Electrical Worker on the plea that they wanted the mechanical signalmen. The combined efforts of these two can not blind the lineman or the signalman as to who produced the results for him, or to where he really belongs. In the I. B. E.

W., he has every other Electrical Worker on the system right with him and behind him with all their strength and also direct affiliation through the Railway Employees' Department of the A. F. of L., with every other mechanic of all other crafts on the system.

The O. R. T., and the signalmen are not affiliated with the Railway Employees' Department and can not look outside their own locals for

support.

If the lineman chooses to be the backbone for the other fellow to lift with, that is his bad luck.

Come where you belong with the I. B. E. W.

WORKERS.

R. R. ELECTRICAL We have received many inquiries relative to placing locals of Electrical Workers on railway systems without obtaining consent of existing local

unions whose jurisdiction the system may pass through.

It would be manifestly impossible to organize the railroad electrical worker if no charter could be issued until consent was obtained from every local union along the lines of the system.

The railroad electrical worker must look for all his support to the system federations and Railway Employees' Department, so must be in a local covering the system as part of system. All other crafts have railroad locals and insist on the electrical worker being organized likewise.

This question has been brought up at the last two conventions of the Brotherhood and laws passed without any opposition providing for railroad locals. The reports of officers stating such locals had been organized were approved by vote of both conventions. The laws of Railway Emplovees' Department demand it and as there is no other course open to us we must continue to organize such locals on the various systems as the need for them is shown.

TELEPHONE The committee on wage and conditions appointed by Postmaster General Burleson has now made their report. SITUATION. or reports as the case might be, to the Postmaster General and it is to be hoped that some action will be taken by him on the reports submitted that will provide machinery to handle labor grievances. We dare not predict at this writing the result, but it should at least indicate the course to be followed in order to arrive at a result in the future.

If your word is no good your bond will be questionable security and will sell below par.

Our meeting Jan. 7th was sure a regular, before the war meetings packed to the door with hardly standing room. We will have to get a larger hall.

Local No. 1 has been swamped with traveling cards, and as Government work around St. Louis stopped the same as other places it isn't reasonable to figure that there is work here. I understand the Executive Board had notified the I. O. to insert notice in the Worker that we have many members loafing.

One important thing that Local No. 1 took up at this meeting was to conclude arrangements with the St. Louis Brass Co., whereby our men would return to work. The men will go back doing the same work that they were doing when they went out last April, with the increase in wages and overtime the other fixture houses are paying. So this will serve as notice that paying. So this will serve as notice that the St. Louis Brass is fair again to our or-ganization. Brother always look for the label in fixtures from St. Louis. They should be there if not please notify Local No. 1.

No. 1.

A telegram was received during the meeting announcing the death of E. V. Higgins at Petersburg, died Jan. 7th. Brother Higgins had to quit work as foreman on the school board's force several years ago, and go west for his health. He made a hard fight and tried both Colorado and Arizona climates, but the grim reaper had his say,

John J. Mauson served the Brotherhood for
many years in many different capacities.
Among them Business Agent and President

during the split, and also president and at
one time was an organizer for the American Federation of Labor. He also had attended conventions as a delegate.

his trade.
Mauson's last position was with the Woodward and Tierman Printing Co.. who were very considerate with him until it was necessary to send him to a health resort, where he lingered for more than a year. He often wrote back hopeful letters. Mauson sure deserved a better worldly reward and heritage for his bereaved wife and son. A man on the other side of the fight who would work as hard for his corporation, spent his nights and his money for its interest would have estates and insurance to leave his family.

we have heard of the wonderful home that the Moose have for their members and families. Why isn't the I. B. E. W. large enough to have a National Home for its members, who become unable to "hit the ball." Probably younger in years than the majority of other walks of life.

Editor:

Your work is laid out for you and you are doing well. The object of the publication is being carried out by you. The I. B. E. W. should be proud of their Journal. The Press Secretaries should see to it that letters arrive in time for publication. There is much news and good suggestions in the poorest letter I have read. I am so situated that, in order to earn a lively-hood I can find but little time to mix with my old friends and brothers of No. I. I am employed twenty-eight nights per month and as all meetings are held during my hours of service, I of necessity am absent. I am as proud as an old man can well be to know although out of sight I am not out of mind.

Many of the brothers have sent me seasonable greetings and from many parts of our country as well as from the war zone, I have received cordial greetings. From Washington, D. C., New York City, Boston, Denver, San Francisco, England, France and several of the battleships. Ah of the same terms and some of instructive value. Under existing circumstances I am unable to acknowledge each as I think would be becoming. Through the Journal I desire to thank all and express myself as always ready to serve The I. B. E. W. or any member. As I have no news to impart I will end by wishing the I. B. E. W., yourself and all members a prosperous and happy new year.

Baldy.

Another year has rolled around upon our great Brotherhood and finds us stronger and better than ever we were in our history. The year of 1918 just passed has been a glorious year for our members because we have made great strides in getting new members, and also in getting increased wages and better conditions all through the United States. It behooves the G. O. and the members of the Brotherhood in general to keep up the good work and not lag or let any opportunity whatever pass us by. We can reach the highest pinnacle of success only if we continue to work in the interest of the Brotherhood in the future as we have done in the past.

work in the interest of the Brotherhood in the future as we have done in the past. During 1918 we lost many of our brave boys on the battlefields of France and Belgium. Many others of our Brothers in this U. S. of A. died from illness of one sort or another while still others died whilst pursuing their occupations and in

the performance of their duties. They are gone from us forever never to return but, they are not forgotten and to their relatives and friends this great Brother-hood extends its sincerest sympathies on their loss which is ours also. May none of us have any sorrows during this coming year is the wish of the writer.

At our December meeting this Local elected and installed the following officers to serve us for this term:

President, Jno. King; Vice-Pres., Ed M. Smith; Rec. Sec'y., Dan W. Mason; Fin. Sec., Geo. Larrick; Treas., James Howley; Foreman, C. P. Williams; 1st Inspector, F. Barback; 2nd. Inspector, J. Magner; Trustees, W. J. McCabe, C. P. Debneys, J. Meyer. Delegates to C. T. and L. Council, H. Dubreys, J. V. Miller. Executive Board members are Jno. King, Ed M. Smith, Dan Mason, Geo. Larrick, James Howley, L. Brumly, J. V. Miler, F. Spies, Geo. Walters, Press Sec'y. Ed M. Smith.

We feel that the above officers will guide us straight and true and will keep our Local in the front ranks of true Unionism. Now that you members of this Local have honored us so highly by electing us to these high and exalted positions we would respectfully request that you honor

our Local in the front ranks of true Unionism. Now that you members of this Local have honored us so highly by electing us to these high and exalted positions we would respectfully request that you honor us with your august presence on meeting nights and also by giving us your undivided attention and support. Otherwise a house divided against itself is bound to fall. So come to meeting Brothers. At our last meeting No. 4 decided to move its quarters from Maccabees Hall, 1014 Canal St. to Electrical Workers Hall, 715 Union street. No. 130 has a lease on the hall at the above address and all Locals of our Craft will meet there. It is nicely fitted up and has all accommodations. The convention committee has requested of me to notify all Locals and members who wish to write them to address all mail for the convention committee to 715 Union St., New Orleans, La. We have selected the convention committee to 715 Union St., quarters and the St. Charles Hotel convention hall will be used as ours during the period of our convention. So that in September, 1919, all roads will lead to New Orleans and the St. Charles Hotel.

The writer is a member of the convention committee, but has been unable to attend to the weekly meetings for some time back on account of not feeling so well. Brother Swor arrived in New Orleans and organized the Powerhouse men into a Local of their own. Brother Swor is a hustler alright and is always on the job. I am so sorry I was unable to see more of Brother Swor than I did and be able to help him. I will say more of Brother Swor in my next letter as there is no praise too much for him for he had a real complicated job of it when he undertook the organization of these Powerhouse men. It would have taken a lawyer to unravel the case, but Frank Swor cracked the nut and got to the kernel. We had been trying to organize these men for the past twenty years. More about the new Local later. With best wishes to the Brotherhood and its members, I am

Now for a little news. On Thursday, Dec. 5th, we agreed to accept a proposition from the companies, that a raise of 28 per cent would be granted and that all the employees would be re-employed at their former positions and no discrimination to be shown, which virtually meant

recognition.

their former positions and no discrimination to be shown, which virtually meant recognition.

The employees recognized that this proposition meant that the unions would be intact and gladly accepted the plan, and on Friday December 6th, the Companies refused to allow the operators to return to work, so the men refused to return unless all returned. So locked out we are, and the companies are doing everything in their power to break the strike, but to no avail, as the employees are remaining loyal to the cause. Bros. Noonan. Boyle, Broach, Slattery, Long and other G. O. men are in here doing their best to settle the trouble, and they have the matter up with Washington, so we look for a settlement here next week. The matter of finances is bothering us now, as it costs so much to live and it is no small matter to finance about 2,000 people during the kind of weather we have here. Any way we are doing our level best, and to the writer's knowledge, the people here are certainly doing all they can to aid in this trouble. I have never seen a more loyal bunch of union people, and they deserve a great deal of praise for their showing. To refer to the Post Office Department. I have learned that laws were passed for the purpose of preventing picketing, prevention of interfering with any strike-breaker in any way, as the Federal District Attorney gave us a hearing on this law, and up to date 14 of the members have been held over to the Federal Courts and are out on \$500.00 to \$3500.00 bond. The Trades and Labor Assembly of both cities are planning on mixing in the matter, and we may have a general strike here in the near future. Well Mr. Editor I guess I have taken up a lot of space, so will close, with best wishes to all for a happy New Year and also with thanks to those that have assisted financially and otherwise in this fight.

Fraternally yours,

I. I. (Casey) Woodard, Fin. Secy.

Editor:

If I am not speaking out of my turn and can get by the censor I will depart from the usual custom of the average press secretary and will put across something that I believe ought to interest every member of this Brotherhood, and that is that we make this organization a Brotherhood in fact as this organization a Brotherhood in fact as

well as theory.

I am going to suggest that we adopt a universal wage scale, a universal initiation fee, and a universal card that is good in any fee, and a universal card that is good in any local in this Brotherhood, whereby a man with a paid up card by depositing same in a local union's jurisdiction, will be permitted to work at any branch of this trade as long as he is able to hold up his end of the job, without compelling him to run the gauntlett of an examining board. Once a man takes the obligation we should not allow any restrictions to be thrown around him that will prevent him from working anywhere. anywhere.

This is convention year and I believe that every right thinking man should look the issue square in the face and see to it that issue square in the face and see to it that every man gets a square deal as guaranteed under the constitution. Send men to the next convention—journeymen, workmen to make laws for the men who do the work and eliminate as delegates, the professional delegate, the soft paw, and lilly fingered element, who go for the joy ride that is in it or to throw McNulty out or to keep him in with the result that the next three months after the convention adjourns every local in the brotherhood is trying to ratify

months after the convention adjourns every local in the brotherhood is trying to ratify or upset what the convention done.

The man on the job who does the actual work is the only one who should have anything to say in making the laws that we should work under. This is the only way to stop the discontentment that exists, and the stop the discontentment that exists, and the sconer the bonified journeyman workman wakes up to this fact the better it will be for us. These are only my opinions as to the best way to right the wrongs that I know exists and if it meets with the approval or disapproval of any one, get in the waters fine.

If this comes under the observation of Brother D. C. Bock of Philadelphia, Curtis Hays of Stockton, Calif., and Brother Felix of Seattle, just remember that I owe you a letter

A few lines to let the Brothers know we are alive and thriving. At the meeting held December, 27th the following officers were elected for the ensuing term:

G. J. Lyman, President; G. B. Warner, Vice President; C. H. Hall, Financial Secretary and Treasurer; W. G. Cramer, Recording Secretary and Press Secretary, W. A. Dermont, Business Agent; C. Glaser, Foreman; P. Steinmiller, First Inspector; C. Machol, Second Inspector.

Machol, Second Inspector.

We are getting along as well as can be expected under the circumstances. Since October 1st, we have a signed up agreement with the contractors for seventy-five cents per hour, 44 hours per week, double time for all overtime. Work at present is slack, although most of the brothers are working, but by all indications expect a groad year.

working, but by all indications expect a good year.

Don't forget Hartford has the eight highest office buildings in the world. The Travelers Insurance Companys' new building, 34 stories, 575 feet high, done by union labor throughout as all work of any consequence in Hartford is done.

We had about thirty brothers in the service during the big scrap who are coming back now after doing their bit, with one

exception. Brother Edwin Hansen who died of pneumonia in France on Nov. 14.
Glad to see the Cumberland T. & T. Co. have been organized. Good luck to 823 of New Orleans. La.
With the best wishes for a happy and prosperous New Year to all the brothers.

on Jan. 7th, Local No. 38, held its annual smoker and open meeting, and undoubtedly this was the most successful entertainment that No. 38 ever held. No. 38 has always held these meetings and have always had great success, but Tuesday night's affair great success, but Tuesday night's affair was the greatest ever witnessed by a body of laboring men. The hall was packed and about 600 of the Brothers attended. There were several out of town Brothers, including Brothers Jones and Hughes of Loraine. Men outside the organization present were, Joseph Bowen, General organizer for the A. A. of I. S. & T. W., Brother Andrew Hughes, International President of the International Coopers Union. Coopers Union.

A fine program was presented, including speakers of the finest talent, music and re-

freshments

Brother Hughes opened the meeting with a fine talk on organization, and urged all members to help in the present campaign in organizing the men in the Iron and Steel

members to help in the present campaign in organizing the men in the Iron and Steel Industry.

Judge Manuel Levine, long recognized as the friend of the laboring man also gave us a talk and showed us how if we wanted to reap the benefits of the great struggle just finished to get the Industrial and Political Democracy that was due us, Judge Levine said in very straight-to-the-point words that if organized labor does not hang together we will hang separately.

Ensign E. F. McDonald, representing the U. S. Government, and Otis and Co. Stock exchange, Mr. McDonald delivered a message from the Government and asked that the men in the Labor movement that were holding Liberty Bonds to hold on to them and if they had to sell them to get the highest price for them and he warned us against Liberty Bond sharkers that were holding Liberty Bond sharkers that were preying on the Laboring man and buying his Bonds for less than the price.

Mr. John Kline, Local No. 38 attorney and one of our best friends gave us a talk on Political Democracy.

Our old friend Max Hayes, the editor of

One of our best friends gave ds a tak on Political Democracy.

Our old friend Max Hayes, the editor of our Cleveland Citizen Labor paper, gave us one of his best talks ever delivered. We have always looked forward to the talks that Max gives us, but on this occasion the old Roman covered himself with honors.

After the speaker had finished refresh-ments were served by our efficient commit-teemen, and every one expressed themselves as having been royally entertained.

Brother Walter Selby was the lucky man in the drawing of the Chalmers car, but we feel sorry for Brother Selby if he keeps all promises to take his friends for a ride.

Local No 38 is going along in the usual way and things are good, only the Building Trades at the present are a little slack, and there are a few of the Brothers out of work, but this can always be looked for at this time of the year.

The Maintenance section and the Telerne maintenance section and the Telephone men are growing stronger every day, and the organizing committee that is working in this section at this time is putting pep into the men and they have all taken on the job of being individual organizers. organizers.

Cleveland pretty soon will start on the construction of the New Union station on

the square and that is going to make the trade pick up considerably.

Brother Frank Sweek who is working with the committee in organizing the Iron and Steel Workers has visited us several times and has made a number of friends with the boys and they all like to see him come around. His little business talks have done us a great deal of good and we only wish that the Brother will be in this section for some time to come. Brother Sweek has been instrumental in getting a number of men in the Steel Mills to join the Maintenance section of Local No. 38, and his talks at the Massachusetts meetings that are being held are always looked forward to as an educative lesson on Unionism.

Wishing all officers and members of the I. B. E. W. a happy and very prosperous new year, I remain

The meeting election night was well attended which makes one wonder if it wouldn't be of some good to have an election every week. It might produce a better attendance. Let's try it.

Conditions are not what they should be in this district owing to the lack of ambish on the part of most of the organized workers and the meekness of the unorganized workers. Some body has prophesied that the meek shall rule the world, but if such comes to pass it will be after the other kind get through with it and we don't want it then either, so why this meekness. Will they ever realize that all they have to lose is their chains? It looks as though the height of their ambition (if you can call it ambition) is to try and hang on long enough to get the price of a coffin, and make their get away for the promised land. promised land.

of a coffin, and make their get away for the promised land.

We, the Electrical Workers, should be the best organized craft in the labor movement and we could if the brothers would only take some interest in the organization and get busy on the unorganization and get busy on the unorganization are week or month but until we have reached the goal of a one hundred percent organization. There is too much of the "ct George do it" spirit among us.

I would like to suggest that the telephone and telegraph proposition be taken up all over the country and a working agreement be decided on by the brotherhood at large, then submitted to officials at Washington. The wage question could be submitted to cover say four different districts as we all know wages must be governed by living conditions which are not the same the country over. Let us hear from some of the other locals on this and also from the I. O. as to what they think of the proposition. Above all let us get going while the going is good.

This being my first offense, I will ask

you be lenient for whatever wrongs have been done. Thanking you in advance, I remain

After an absence of nine months, my being out of town working on one of the cantonments I failed to have a letter from Local 45 in the Worker, and as I have been asked the reason why by a great many of our traveling brothers, who have had their cards in this local some time or another, why don't you write, we miss your letters. Of course I told them being out of town I was not posted on what was going on, so as I am back in the harness again I will have at least one more letter in before my successor is elected.

was not posted on what was going on, so as I am back in the harness again I will have at least one more letter in before my successor is elected.

Work in and around Buffalo is not very plentiful at present. A number of the members are walking the streets, so it would not be advisable for any one coming this way looking for work.

Two of our members passed away with the flu, one died of tuberculosis, and one died of disease somewhere in France. Following are the names of our departed Brothers, Wm. Lumley, Edw. Kessler, James Udell and Private Arthur I. Byers. Our meeting nights have been changed again to the second and fourth Wednesdays of each month, and we also have moved into a large and better hall. We now meet at the Engineer's hall at 667 Main street.

We will hold our annual card party and dance in this hall on Jan. 22, 1919, full particulars will be given of the dance in the next issue of the Worker.

It seems funny to me when any of the organizers of the Brotherhood are in town they seem to forget that Buffalo has a local of linemen, or at least they fall to put in an appearance at the meeting. I wonder why? They will come in here and put in new Locals and never ask if we have any objections, but we must turn over our members to them. Why can't this new Local become a sub-local of 45. However we will see how it works out. It has been just brought to my attention that Brother Frank Derlin is very low in the hospital. Here's hoping that he will soon be around among again.

Following is a list of our new officers that will man the ship for the year 1919. Let all the members of 45 get behind them and push with a will. "Boost, don't knock.: President, Byron Earl; V. Pres., H. H. Stickney; Fin. Sec. and Treas., R. N. Zimmerman; Rec. Sec., V. B. Skaggs; Foreman, J. R. Darison; Inspectors, W. Carr and W. E. Wedgery; Trustee three years, G. E. I desire to draw attention to the fact that Kansas City, Mo., is still on the map and comes back with a new number and

almost a new local, for those who do not know. several months ago we changed our number from 356 to 53. We are here to stay. We have taken in two hundred new members this year and still going.

The telephone section of No. 53 is bravely standing up under the opposition that the Telephone Company are putting in their way. The boys are a little slow in seeing the light but our worthy president and members are hammering away at them, and every meeting brings one or two new members. Some of the old members are coming back and determined to stick and good husky fighters at that. We expect to increase our membership and will make it interesting for the Telephone boys, and any Electrical Workers who wants to do the right thing. We are going to boost our initiation fee up ten dollars (\$10.00) the first of the new year. The Brothers are tending their new meetings more regular and best of all they are getting so they are on time with their dues, and they always find Brother Robberts on hand with his hand out to receive their little bit. About all of our members are up and around again after being laid up with the "Flu". At our last regular meeting fifty members being present, and it is beginning to look like the members are taking an active interest in the meetings. Well guess I will pull the switch with best wishes and regards to make conditions good for your return. Hoping this does not go to the basket route, will say good night.

Suppose the best excuse for our silence at 55, is on account of the "flu" coupled with our busy session with the Bell boys, and it seems both have done well. Several of the boys have had a siege of the flu, but all seem to come out alright, yet they all tell the fellow who hasn't had it to be careful for it is no company for a gentleman to keep.

Brother Torkelson, who received a broken leg from a fall about two months ago, is now down with typhoid-pneumonia, and is no a serious condition, but Ole has lots of nerve and can put up his part of the fight and we all hope he will pull through O. K.

Some of the brothers went out on the Milwaukee job at Hyat, Washington, and some recently went to Camp Grant.

The government is discharging lots of soldiers at Camp Dodge every day and for this reason work around here doesn't seem over-plentiful, but Iowa claims she is going to boom after April 1st, which I think it will, and if it does men will be in good demand. demand.

It is perfectly natural to believe that a reconstruction period must also take place at home as well as in the battle scared nations of Europe.

Many utilities companies have done little work during the past two years on account of the scarcity of men and material, but they can get the material by spring and its sure if they don't do the work that their lines won't work on the ground.

The end of the war and the shutting down of all the Government work has brought all of the members of Local No. 66 back home, and it has brought quite a few of the old timers through Houston. Word and conditions are just fair with the members of Local 66. The Light is working quite a bunch of men, but outside of the Light there is not much doing.

Some of the boys on the Light job called the attention of the B. A. to the fact that they had some 100 and 120 ft. poles to hike and they also said they should have more money for hiking them. The B. A. looked over the job and he decided he would not climb them himself and if any of the Brothers did they should have double time so he secured for the Linemen that had to climb them double time, giving the men \$1.50 per hour.

climb them double time, giving the men \$1.50 per hour.

All of the members that are in the service and whose address was known was remembered by Local 66 on Christmas with a box which contained eleven different articles. We hope they all received them in time for Christmas. Local 66 is still trying to organize the telephone job and while they are not making much progress they are not going to stop until they are organized 100 per cent. It is no easy job and the members all realize it and they have prepared themselves for a long and hard job.

The Locals in the different parts of the country should see that the Electrical Workers in the oil fields are organized into the I. B. E. W. The Oil Field Workers meet in the city of ElPaso and formed their International Union. They are going to see that every man in the field carries a card, and we should see that the Electricians carry an I. B. E. W. card. For if we don't organize then the Oil Field Workers will. As this line of industry is a coming one and the Oil Companies are going to do our part and get and keep what belongs to the Electrical Worker. The Headquarters for the Oil Field Workers is going to be located at Ft. Worth and Brother Bob Evans has been elected President.

Local Union No. 69 wishes the Brotherhood a happy New Year. Business is a little slack at present; but we expect work to boom in a few months. The oil fields are making lots of work and we have a good job with the Western Union. That may sound funny, but the foreman says "let me see your ticket." There are only about four or five cards on the Bell job at present, but we are waking up and I expect something to happen soon.

We wish Brother Broach much success in the Twin Cities. His results there will mean much to the linemen everywhere for the same ruler that rules there rules everywhere.

The Railroad Electrical Worker has at last come into his own, after years of low wages, long hours and bad conditions of

employment. Through the efforts of Organized labor he is now enjoying conditions that he never dreamed of.

The writer of this got into the railroad game in May 1918, and is able to see the great results obtained by the wiremen, shopmen, cranemen, station men, signal men and linemen.

Shortly after Supplement No. 4 was issued by the R. R. administration and the C. & E. I. R. R. refused to pay it to a part of their men, the writer representing the linemen, Brother Eagle representing the signalmen and Brother Lyons of the Int. office took the matter up with the R. R. company with the result that we had to place the case before Adjustment Board No. 2, from whom we got a favorable ruling in November. This decision acted as a precedent for all other roads and today I suppose all signal men and linemen are working under Supplement No. 4. If they are not they should at once take the matter up with the International office.

The award is retrotractive to Jan. 1st, 1918, and quite a number in fact a majority of our men drew their back pay in a lump sum amounting to approximatly \$750.00.

\$750.00. This should make every man who works for a railroad in the Electrical game, no matter in what department get busy and at once get into the I. B. E. W. where they belong. Some men are going into the Brotherhood of Railway Signalmen, but they have no chance of representation as only organizations in the Railway Department will have any chance of having their grievances taken care of. A word to the wise should be sufficient. Get into an organization that can take care of your affairs.

affairs.

Another matter that has come to my notice and that is lack of funds with which to carry on our work. We should at least increase our per capita tax 10c per month, we can all stand it and it will give us the funds with which to reach the unorganized man. We have 15,000 signal men and linemen that should be reached at the earliest possible moment, so that we may be in a position to hold what we have after the railroad question is settled.

I do not think that anyone but the I. O. knows that there is such a thing as Local 76, but there is, and you can take it from me that it is some Local Union at that. We have about 275 members and the most of them are real live ones, and we have some real live officers picked for the coming year, which will be installed at our next meeting. Our monthly Vice-President will represent Local Union 76 at the conference Jan. 14, and look out boys he is a live wire and he is out for business, and if there is any business out he is going to get it. Local Union 76 is full of those kind and we are making some progress. We are just like a big family at our meetings. No more rough stuff goes, we are all for one and one for all, and we are going to use this as our motto from now on.

We are brothers and we are going to be brothers, and have a little real live unionism in our Local Union, and I think we will be a leading star within a year, and by the way we are making plans for an educational policy, which we expect to start to rolling in the near future, and we are going to educate some of our new brothers to the real fundamental principles of unionism. I believe that this course should be pursued in each and every Local Union in the country. Teach the new members what real unionism is and make real union men out of them.

Before I forget I want to mention that

we have two former Brothers who have decided to cast their lot with the only scab shipyard we have and they have a due \$100.00 fine and expelled from the Brother-hood. Their names are C. G. Fralick, former member of Local Union No. 6, Frisco, and Lon Johnson of Local Union 76.

Work is not so rushing here now as it was, but we have very bright prospects for the near future. For instance there are plans on way to start a \$1,000,000 Hotel within the next six or eight weeks and several other smaller buildings, also the foundation company is planning on an 8-way steel yard if Uncle Sam will let them have steel, which I am sure will go through all O. K.

have steel, which I am sure will go through all O. K.

Thanks to the A. F. of L. for the way they rendered the decision on the Crane dispute. We Electrical Workers of the northwest feel that it was not a square deal to us, and are not at all satisfied, but I believe that it will all come out in our favor a little later on. Here is hoping so. What is the matter with Local Union No. 265. Their Press Secretary must have eloped with the flu. My advise is to fire the one they have and hire him over again, and maybe he will do better.

Talking about flu, we have had flu until that is all you can hear or see, and we still have lots of it. Local Union 76 have had several members down with it and several deaths in the families of members and it is still raging all through the northwest. We were closed down for seven weeks with it, which put us behind considerable for it prolonged a new wage scale seven weeks, and by the time the flu settled down so we could hold meetings, the armistice was signed, and the bosses said what is the matter with you dam fools. settled down so we could hold meetings, the armistice was signed, and the bosses said what is the matter with you dam fools, don't you know the war is over? You can't get eight bucks now, but we did just the same. When we all packed our little tool kits to the shops and said its all over—no pay no work, it did not take them long to pay, and every one went back to work hanny.

work some the well back to work happy.

Well Brothers, I will not tell you all I know this time, for if I do not get fired from my job as Press Secretary, I will want to have something to write next time. But at any rate if I do get fired I wont give Local 76 any rest until they appoint another one

wont give Local to any point another one.

Here is hoping all the Brothers a happy and prosperous new year.

A line from Local No. 109 of Rock Island, Ill. Well here we are in a big snow storm and 16 below. It has been some time since Local No. 109 has had a letter, as our last Press Secretary did not write any at all. As I was elected Press Secretary, I will write one, but will make it short, but I believe every local should be fined if they do not write a letter every month to the Worker. Brothers I can remember a long time back when we would get the Worker. It was a big fat one, and now it don't have only a few letters. I for one like to read from everywhere. Well Brothers to let you know how things are around here, there isn't much going on. Our Sister Local No. 154 had the sad misfortune to have a Brother, Joc Camom killed while working on a high line 13,000 volts. Just how he got it, is another unsolved problem, as most of accidents are, everything goes in favor of the company. Brother what can we do to have justice. There is only one thing, get down to business. Every one go with one another, stick together is the only

thing to do. Well editor if you have room and this don't get in the waste basket, I will write more next month. Hello to 155. With best wishes,

As I was elected as press secretary, I will try and let the boys know what Local No. 36 is doing. We elected new officers last Tuesday night. As follows: President, A. M. Baker; Vice President, J. E. B. Vincent; Recording Secretary, J. Brown; Financial Secretary, W. P. Reynolds; Press Secretary, your humble servant, F. C. Pouell. We have also changed our meeting from Friday night to Tuesday night and our hall from 1813½ N. 2nd Avenue to Ben Hurr hall, 1809½ N. 4th Avenue, where all brothers will find a welcome hand if he is in good standing with the Brotherhood. Our local has made a big improvement since we changed halls. We have taken in several traveling cards, also improvement since we changed halls. We have taken in several traveling cards, also several new members. There still are several to come, but for some reason fail to do so. There is very little work here at present and we are overrun with traveling brothers that have been turned loose on the Government works. So would not advise any bothers to come this way. traveling brothers that have been turned loose on the Government works. So would not advise any brothers to come this way expecting to work, for it is not here. We are also expecting some trouble here in the near future, as it has been rumored that the contractors were going to try and cut wages, and we can't stand for that now the way living expenses are here, regardless what a man makes, it takes it all and then some to live. Our local had several brothers to leave here while there was so much Government work going on, but most of the old boys are coming back. As this is the beginning of a new year, I will endeavor to start 155 out on the right road. Owing to the outcome of election of officers here last meeting night, this will be my last article for some time, but will say that the brother elected in my place is well qualified for the job so you may look for some interesting letters from 155 during 1919.

The following officers were elected for the ensuing year: President, M. R. Callian: Vice President, Fr. White: Financial Secretary, O. A. Waller; Recording Secretary, Bill Nelson; Treasurer, J. O. Miller; Trustee, C. E. Custenborder; Press Secretary, N. I. Sommers; First Inspector, H. A. Chawley; Foreman, F. S. Link; Executive Board, W. F. Flagler, J. R. Gallian, J. R. Myer, F. C. Pitts, J. F. White.

There is nothing of excitement going on here now. All of the boys are working.

We have some real winter weather here now and a good deal of ice with it. The boys over at the street car have been getting plenty of overtime and I see Mother Bell has some low lines laying over in the fields out of here and very few linemen to pick it up. We got most of the bunch lined up and as soon as the company found it out the big lay off took place, so all they have is a few old block heads to run the school for linemen up there, they make em, while you, all the foremen have to do is place his order and the instructors gather up some youngsters

and take them to the pole yard where they have an 18 foot pole set and the school

nave an 18 foot pole set and the school is open.

I believe that now is the time the laboring class should be getting their heads together, because with the coming reconstruction I am very much afraid capital is going to try some of their old tricks and we want to be prepared to come back at them strong enough to make them sit up and take notice. There is one thing certain they are not going to give in unless we can stand pat with our backs against the wall, so let us unite ourselves as we have never been before and give a race for their money, that will not be forgotten for some time to come.

So it is a hard fight to try and line them up. is open.

Bishop Potter tells of an incident that occurred at a negro camp meeting. The presiding elder had a voice like a fog-horn and used it to the full in exhortation. "Lord" he prayed, "give us power! Give us, Lord, power!

We want power, oh, Lord! Power is what we want.

we want-

More power! Give us power we beseech thee."

came a voice from the seats, "yo"

"Elder" came a voice from the seats, "yo' is shuh wrong,
'Taint power what yo' need, but idees."
Rotten isn't it, d—rotten and old too.
I really don't think much of it myself but I also run out of ideas and had to use it—yes, it does help wonderfully in filling un space.

Any way we wish you all a Happy New Year, and prosperous one also—may this approaching year be to you as old 1918 was to us, chuck full of prosperity. No doubt the conditions confronting us during 1918 were general, throughout the country, due mostly to war industry.

The sudden declaration of peace (which we had all longed for and celebrated largely upon its arrival) stopped suddenly several jobs each of considerable size which were not nearly completed, much to the dissatisfaction of quite a few visiting brothers who possibly had contemplated remaining with us for a longer period.

plated remaining with us for a longer period.

Our contractors are once more in the lime-light since general construction work is no longer termed non-essential. May the Lord grant some of them less power and more ideas also, especially those that solicit work at 80 cents per hour, while our scale is 68% cents with quite a number of the boys receiving 75 cents.

Speaking of peace celebration our way, can say that we left nothing undone. As old Cincy always has been and we hope will continue "Over the Top" in everything she undertakes. I met one of our boys in a certain cafe the morning on the day after our main celebration—his appearance suggested he had indulged too freely, I approached him and inquired as to how he felt. "Fine, fine" was the reply. "Drunk three days, yesterday, today and tomorrow."

felt. "Fine, fine" was the reply. "Drunk three days, yesterday, today and tomorrow."

I don't suppose you think much of that one either—but if I ever get a hold of a real good one I will put it across, and you can tell me what you think of it.

I hate to recall momentous of by gone days, but several years ago if the close observer of the Worker will remember, we boasted quite a bit over the fact that a certain building which was then being started would at some future date be turned over to our city as our new courthouse. We all appreciate that Rome was not built in a day and I suppose that applies to anything under construction. We sincerely hope when the time comes, that our grandchildren will dedicate this beautiful piece of work in a befitting manner, and may they bear in mind one thought above all others that it stands as a monument of the efforts of our county commissioners who expanded every effort for the rapid completion of same.

It is with much regret that we enter in this issue a statement concerning the possible death of Brother Russell Blackham. Declared officially by the U. S. War Department as having been killed in action we are still in hopes that news may reach us of a mistake being made and that he is still among the living. A more definite statement concerning same will be published in the next issue of the Worker. Again wishing all a bright and happy New Year, we remain,

Fraternally yours,

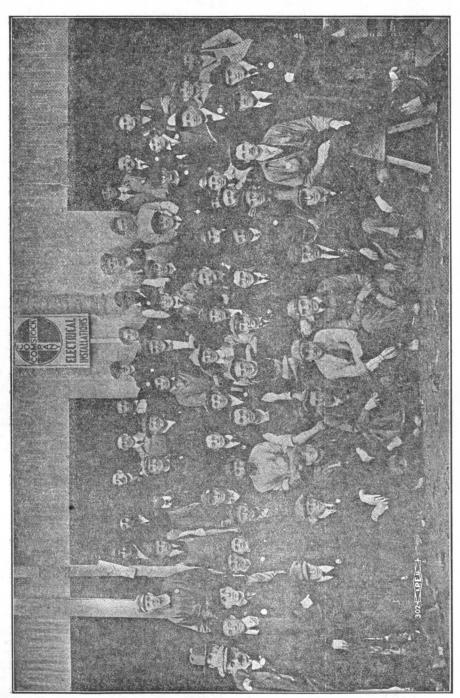

E. S., L. U. 212.

Having the pleasure of writing a few lines to the Worker, Local 258 wishing all the locals in the International Brotherhood a happy and prosperous new year. We are very glad to say that we have been very progressive in the past year and hoping that we will do as well in the fu-

ture. We are sorry to say that we have lost one of our good local workers which is Brother F. E. Proulix, for he has taken out a traveling card. In the past year he has held many offices and served on the Executive Board, Trustee, By-law Committee, Press Agent, and as Organizer. So you can easily see what a great loss the local received, but hoping that he will be as good a worker for the Brotherhood, no matter wherever he stops.

Just a word or two to let the boys know that 292 is still on the map. We have been taking in new members thick and fast and 292 is now better off, financially, and in membership than she ever was.

in membership than she ever was.

The telephone situation here has given a lot of concern, but we are going to do what we can to back the ops up. We are taking our hats off to Brother Couver, who is a railroad electrician in 292. This is the boy who spent 24 hours a day lining up the Railroad Electrical Workers, and is bringing them in a "Heluvarate", or to use better English, he is doing some very fine work, indeed, and is a very tire-

less and ardent worker for the cause.

Brother Broach has almost worked himself to death on the telephone situation, and if that doggone man don't let up a little bit, he will have to be taking shots in the arm pretty soon to keep him on his feet. He is almost a walking ghost from hard and tiresome work.

in the arm pretty soon to keep him on his feet. He is almost a walking ghost from hard and tiresome work.

Conditions in Minneapolis are none too bright, and would advise floating brothers to keep a few miles away from Twin-Cities right now. We have a lot of our boys back from the Eastern Construction Camps, and quite a few of our boys are out and coming out of the service every day now. We have a bunch on the not working list so have got to hustle around and try and get things going. The outlook for next Spring looks fairly good, but it is dead right now.

We have found quite a cute little stunt for getting good attendances at meetings. Our regular dues have an extra 50 cents attached to them if a member does not attend at least one meeting a month. If one meeting is attended the 50 cents is taken off making it straight dues.

Brother Chas. A. Anderson has been once more elected Business Agent, unanimously, which speaks darned good for old "papa Anderson" and believe me boys, he is 100 per cent on the job.

There is only one sad epistle in 292's letter, and that is, we have lost a few of our boys in the fight for freedom and democracy, and believe me, brothers, the boys left back home, and those that come back are going to put up the toughest fight for freedom here at home that we ever had. We have in due honor and respect for our fighting brothers, bought a beautiful memorial, with their names inscribed upon it, and it will always be on display to those brothers of the present and those to come.

With best regards from No. 292.

If Ex-mayor Lew Shank was auctioneering the city of Indianapolis to the highest bidder, and Robert I. Todd had offered the highest price, would the present Mayor Jew-ett? To those of you who don't see the joke, I would advise you subscribe for "The Indianapolis News," that way you will get a "Joke" daily.

Pardon me Brothers if I appear a bit breezy, but I just blew in—my last dollar (I paid my dues.) As I was the longest winded guy in the hall I outran the other candidate and in spite of the cigar and cigarette smoke was elected Press Secretary and as such I take pleasure in introducing for your approval, the chaps who are going to take the "Nap" out of Indianapolis, but maintain the "poles" in same at what we hope to be an ample compensation for the clothes we wear out and skin we lose in doing it.

At the same time we wish to place Indianapolis, Ind., on the I. B. E. W. map in the form of Local Union No. 368 I. B. E. W., and furthermore it is our firm intention of keeping it on that map, if we have to move somewhere else to do it. We want to do something to gain notoriety besides just having the flu.

We have practically all our fighting ahead of us yet, but as the majority of us are married and in good training we are bound to win—the single fellows all being familiar with the lock step saves time.

We have just installed new officers for the coming term, but will not bother you with a list of them this time. Will have them all rounded up in the county jail by the next letter, thereby saving separate addresses.

If anyone should happen to want to know our present ware scale please notify

If anyone should happen to want to know our present wage scale please notify them I only had two weeks in which to write this letter and that isn't time enough to cover all the different prices paid here just now. Hope to have a different report soon, as we have had a man here from the war board investigating our conditions. We are confident of a square deal if we have to force it.

are confident of a square deal II we have to force it.

We are having some trouble along the discriminating method, several members have suffered some inconvenience on that account—yours truly one of them, but we die hard, always a paid-up card in our pocket. Don't think we are losing, we haven't gotten our "Irish" up full height yet. The job I lost is still covered by a card man. There is always a card man ready to step in and carry on the fight. We havn't got a closed shop yet, there is still some bootlegging from wet states.

Brothers. we came to you as a new and

Brothers, we came to you as a new and young organization, which we are, as a No. 368, but there is one thing we wish to call your attention to. as members and fellow workmen we are not young and green.

The majority of our members are war scarred veterans who have stood up and fought as well as sacrificed for the great principles involved in organized, workmanship, and will do it again.

We hold the God given privilege of controlling our own destinies. We maintain we are not slaves to capital, to come and go as they will it, at whatever compensation they wish to give, but we are their brothers in business—absolutely as necessary to the world's progress as they, and as such demand the recognition due our value.

Co-operation is the keynote of success.

We must at all times recognize the necessity of having capitol and finance to forward and business. At the same time they must also realize and recognize their absolute helplessness without labor to carry on the work.

We are not in this movement to promote any sellish ideas, but for the betterment of conditions for all mankind, it is our only protection against graft, in unity there is strength. Then Brothers, let us all unite under one leader, stand firm and strong for what we are a strength and strong for under one leader, stand irm and strong for what we are justly entitled to—a home and all the necessities that go with a well ordered life, and don't forget old age. But i don't want to do all the talking. I might get wound up and forget to run down.

The idea I wish to convey is simply this, Local Union No. 368, I. B. E. W., Indianapolis, Ind., is composed of perfectly capable members, all of whom are with you until the lest don is dead.

members, all of whom are with you until the last dog is dead.

You may depend upon us at all times to the extent of our ability as it is our earnest desire and sincere aim to so live that when we come to cross the dark river of death into that great mysterious beyond, all our fellow workmen and Brothers, even the undertaker will grieve to see us go.

As this is our first letter we desire to wish you each and every one a happy, prosperous new year, and may all your troubles be little ones.

This local has done quite a large amount of work in the initiation line this fall having put through as many as 31 new members at one meeting and increased our membership by about 75 per cent or more. We also have over fifty sisters which is something new for 589. Of course we had the assistance of I. V. P. Brother Ingles and to him a good bit of the credit is due. The boys affected are not aware of it, however if the party responsible for statement appearing, will send on further particulars as to when same was granted, they will take much pleasure in drawing extra rate also outstanding salary. Well as far as the city of Saskatoon and No. 589 is concerned, our new agreement is drawn up and has been presented to the bosses, but has not come up before the Council as this does not usually take place until the new Council takes hold at the beginning of the year, so you will see by this, that our increases are granted at New Years (sometimes a month after), but its a go from the 1st of January. We have had some interesting meetings. All the boys seem to be working around this neck of the woods. Brother H. Brooks, who has been stationed at Camp Dix has been honorably discharged, and will be on the job by the first of the year.

At our last meeting we elected the following officers for the ensuing year: R. E. Beck, President; H. Hacket, Rec. Secretary; C. Yagger, Foreman; Becthal, First Inspector; B. Cobb, second inspector; Ed Cimens, trustee for three years.

This is about all I can think of to write this time, hoping there will be a space in the Worker for this letter. Wishing all the boys a happy new year.

You notice my salutation to the brothers and the world at large is in the positive. Yes we are growing, growing. Get in the game with us, for we want all of you to share and share alike in the "Greatest Nation of Nations" prosperity of the new

Now that our boys are coming in from over the sea as well as at the camps, you may expect some real fighting as you are well aware of the fact that they come out of a field of victory. They will therefore demand better, safe and sane conditions in a new field of victory, so get busy and get them in if they are not already carrying

them in if they are not already carrying a card.

I am happy to say the new year already as early as we are into it, we are getting some valuable information that will serve us well in the near future. We are now quite above the 2,000 mark and each day we have a member bring in a member and have them signed up and call for additional applications, so you will readily understand why we are growing so rapidly day by day, for each member is doing his bit and some of our hard workers are doing his "two bits."

Our very energetic and efficient business

some of our hard workers are doing his "two bits."

Our very energetic and efficient business representative, Brother W. P. Lavin, has been fortunate in securing the services of a valuable assistant, who is now looking after the Hammond, Ind. office and also one for the Gary, Ind., which gives him much more time in the field, which, as we take in the entire Lake County, is very large.

Now brothers, our boys are now beginning to come back from their patriotic duties over seas, it is our duty to care for them, so get out your best smile and give them the glad hand of good fellowship, and you will be surprised to find what miracles can be worked with the above same implements. So get busy and be ready to welcome their pal or even many of them, whom he has told of the good qualities of the little green card.

Now get together, one for all and all for one and lets fight the good fight and when the year has again rolled around let it not have found us wanting.

Yours sincerely and fraternally,
Press Secretary.

Just a few words for the January issue if I am not too late, or the Editor refuses to print the advertisement.
Old Jack Frost is busy in this territory now and consequently, while he is busy,

some of our members are idle, but we are in hopes that old Jack will travel farther north soon, or in some other direction, for under the present high cost of living, it is almost necessary for the boys to work steady in order to get the usual three-a-day and a place to flop.

At the present time I would not advise the Travelling Brothers to expect too much, if they happen to drop in to see us, for we have some members out of employment on account of the cold weather, and of course it is natural for us to help the Local boys first; so all I can say is we will try to do the best we can for all, but don't expect too much. too much.

the best we can for all, but don't expect too much.

The outlook for the coming season is very bright in Lake County, and if the unexpected does not happen we will have a better season in 1919 than we had in 1918. We nearly doubled our membership in 1918, and got an increase of wages from \$6.00 to \$7.00 per day, so if we better our record this year we will still be able to say that we are among the Top-Notchers, as far as wages and conditions are concerned. We have not decided yet if we will ask an increase in wages this year, but if we ask for \$1.00 per hour you can rest assured that we will get it, or some one will know that they have had a h—l of a fight to keep us from getting what we deserve; for we have the Mechanics who can do the work and they also are Union Men and will stick to the finish for what is right.

Respectfully submitted,
J. W. Wagner,
B. A. and Press Sec. Local No. 697, 504 Hohman St.

L. U. NO. 716, HOUSTON, TEXAS.

Having been elected again Press Secretary, I will try and start the new year right. New officers were elected for ensuing term. Brother Smith, who has served as President for the past four years declined to run and Brother A. V. Potter was elected President. Brother W. J. Peters was elected Financial Secretary. There were quite a few changes in the officers of Local No. 716, which show in the Rooster. Local No. 716 has had thirty-two members in the service and most of them are over there. There has been six of the members that were in the service discharged and have returned home. The following are the members that have returned up to date: Brothers J. C. Bayley, Edgar Woods, R. R. Purnell, Dillon Stiles, Fred Kopp, Roy Glover. They all expressed themselves as well pleased with the treatment they received and they said

they would not take anything for the experience they have had, but they had no desire to go through it again.

The big rush is now all over and we are trying to aquaint ourselves with normal conditions again. Work in and around Houston is scarce and we are just holding our own. We have the J. G. White job at Matagorida lined up and we want to advise all of the brothers that they will have to see the B. A. of Local 716 before they can go to work.

can go to work.

We have noticed with interest the action of the A. F. of L. in regards to the decision rendered in favor of the Engineers. It goes without saying that the Electrical Workers will never live up to the decision. There has never been such an unfair decision rendered and it is up to the members of the I. B. E. W. to see that the engineers will never get any place with it and if it takes a fight to win the Electrical have got it. got it.

got it.

There is another case confronting the Brotherhood and that is the case of the Railroad signal men. Those men are organizing themselves in an International known now as the Brotherhood of Railway Signal men, one that was never heard of before the war. If there is any class of men doing our work it is this class of men and they should be in the I. B. E. W. This matter deserves the attention of the Brotherhood and some effort should be made to get them in.

Will class for this time and will try and

Will close for this time and will try and let you hear from us again next month. Wishing the I. B. E. W. and its officers a happy new year, we remain

Fraternally.

Having just been elected as Press Secretary on Jan. 2, 1919, wish to at least get a few lines in for January issue.

few lines in for January issue.

Glad to say everything in Local Union No. 750 is gliding along smoothly, having elected and installed new officers for coming term. Also wish to emphasize that for no longer than we have been organized that every one is taking sincere interest in our welfare, also that the future prospects of No. 750 seem exceedingly bright. Will try and send some definite news next month.

Fraternally yours.

Contrary to expectation, I am going to let the Worker know 755 is on the map and able to sit up and take notice. Although the skeptic has declared we were just as good as dead, and I expect there are some people that wish we were dead. Just completed election of officers, financial standing is good, membership on the increase, fees raising to \$25.00 in the next month or two with attendance fairly good, and am in hopes of better attendance when bylaws are passed next meeting. We have been very slow in getting our bylaws completed and in working order. Our working conditions are very fair; wages not the best, but better than was ever known in this section. We have one bad fault to overcome in the way of new men or apprentices abusing the working conditions that now exist, in the opinion of your humble servant if we do not live up to the present agreement we can't reasonably expect a better agreement next year without a bitter fight.

Just a few lines from one of the newcomers, L. U. No. 774. Will endeavor to explain how we are getting along. No. 774 which was organized in July, and whose territory extends over the Baltimore and Ohio on all points west of Pittsburg, is well on the way to the 100 per cent mark. Have been taking the boys in at a pretty clip here lately and hope to have the balance under our wing within the near future. Applications are rolling in at a rate of twenty or thirty at a crack, but think this would have been greatly exceeded had not the Spanish "Flu" gotten such a grip on Cincinnati, which is the headquarters of our local, and due to this we were unable to hold meetings for quite a while, therefore, have been delayed considerable in our work. Since Uncle Sam has taken over the roads the boys have fared pretty well, getting some of the justice which has been due them for a long time. The following are the rates of pay:

Foreman 73 cents per hour; Wireman 68 cents per hour; Linemen 68 cents per hour; Helpers and Apprentices first year 45 cents per hour; third year 57 cents per hour; fourth year 62 cents per year.

These rates are somewhat better than the

cents per year.

These rates are somewhat better than the

These rates are somewhat beller.

No. 774 is also a member of the Baltimore and Ohio System Federation No. 30, which affiliates all crafts on the road.

With best wishes to the future success of the I. B. E. W. and wishing you a happy and prosperous new year.

L. U. NO. 817, NEW YORK, N. Y.

Editor:

The new year has been ushered in with a vociferous and joyous reception. Everything looks bright and cheerful, and prospects for the working man never assumed a more powerful aspect, powerful in the sense of being cemented together by the bonds of brotherhood and friendship, and pledged to act in unity for all causes of right with never a greedy or unjust thought in their clean and unsullied minds. Local Union 817 has truly grown in the first three months of its existence, for which we can fervently thank Brother Edward Kloter, Organizer from the American Federation of Labor, whose wonderful organizing ability and indomitable will instilled in the minds of the workers, who never knew what it meant to be under the

stilled in the minds of the workers, who never knew what it meant to be under the protection of organization, the spirit of freedom. Local Union 817 will always look at Brother Kloter as being the fertile seed from which has sprung the sapling, soon to assume the sturdy proportions of a full grown and hardy tree under the branches of which all workers will find protection. Freedom and Equality shall be for all, and no unjust action will be accepted, for we have but one life to live, and let that be free ard clean from contamination, and never allow any injustices to be perpetrated on our fellow-men. Under government control the electrical

on our fellow-men.

Under government control the electrical workers of the New York Central R. R. Co., of which Local Union 817 is comprised, have been treated fairly well. They have received increases in salaries, which dated back to Jan. 1, 1918, being paid one in July and the other in December, both of these carrying with it a nice little wad of back pay, which we can safely say came in mighty handy. Of course, some of the boys feel that they should have done a little better with them. These cases no doubt will in due course be taken up with the officials and most likely brought to a satisfactory agreement.

factory agreement.

The terrible conflict that tore at the

vitals of the world is soon to be brought to a close, the active fighting having ceased in November past. Peace will soon be made and as the one endeavor of the Nations of the World seems to be to make it a lasting peace, one that will be impervious to the hand that wishes War, just so, let there be a lasting peace between employer and employee. Let there be no grievance, no matter how small but what it cannot be brought up in conference and properly adjusted, for as President Wilson said in his speech made at Manchester, England, "That makes it necessary to make some great effort to have with one another an easy and constant method of conference, so that troubles may be taken when they are little and not allowed to grow until they are big." Truer words were never spoken. How many labor disturbances could have been avoided, if only a conference was small and was not allowed to assume large proportions?

The flow of returning soldiers is now under way, and let us hope that when they are mustered out of service and find themselves back in the channels of civil life every effort will be made to replace them in their old positions, where by doing so it will not mean the dislodgement of a fellowman. No doubt, there will be room for them all, and if not, places must be found for them, the boys who sacrificed more than we will ever know. It's up to us, the ones who stayed at home, not through choice, but through necessity, to look after these brave chaps, and see them properly located, if not on their old jobs, on ones just as good. So, we must make it our business to keep our eyes and ears open, and do all we can for the boys who come back bringing with them glory and honor.

brave chaps, and see them properly located, if not on their old jobs, on ones just as good. So, we must make it our business to keep our eyes and ears open, and do all we can for the hoys who come back bringing with them glory and honor.

The period of reconstruction means a lot to the entire world. Not only to the war devastated countries of Europe, but also to every civilized country does this work of reconstruction carry with it enlightenment and new ideas. The reconstruction of labor conditions alone is something that will prove of great advantage to the working man. Think of the poor individual who is without the support of an organized body. Look at his rate of pay and then compare it with one who is under the protection of organization. So, you can readily see there is much room for improvement, and let us hope the hand of reconstruction reaches far and gathers within its scope the many thousands of unorganized labor and brings them together under their different branches, welding them into a solid mass, and showing them together under their different branches, welding them into a solid mass, and showing them the benefits they can reap out of life if only they are treated humanly. How many of us have enjoyed an increase in salary sufficiently large enough to offset the high increase in the cost of living? True, many of us have enjoyed an increases but then look at the number of workers who have not. How have they been able to make ends meet? Only by denying themselves many of the necessities of life and merely living a hand-to-mouth existence. Something must be done to aid these fellow-men in getting together, and something will be done, and the year 1919 is the time to do it.

Let us rise and wish with fervor a happy and prosperous New Year for all branches of Organized Labor, and that Local Union 817 by this time a year hence will really and truly have become a pillar of the Temple of Labor.

Freaternally yours.

L. U. NO. 96A, WORCHESTER, MASS.

Hope you will be interested to hear from the Telephone Operators Local Union 96a, We were installed Dec. 23, 1918. We are

meeting every Monday evening until things get to running more smoothly. If the meetings are as well attended in the future as they have been in the past I hardly think there will be any question but what we will succeed.

We are giving a dance this month to help fill our treasury. From the way the tickets are going think our treasury will receive a

substantial sum.

We received our pins at the last meeting and we are certainly proud of them.

Hoping to have a good report for next month, I am,

A few lines to you and the Brotherhood at large from one of the membership a long way from home. I often wonder how things are drifting along back in God's country. I had the pleasure of attending a meeting of L. U. No. 20 at N. Y. city, also taking in the New York and Brooklyn Labor Day parade just before leaving for over here. I was given an I. B. E. W. pennant from the Marine Local, from the ship vards which is touring France with me and is sure good to look at when a person does not see many union labels not even on made in America products. Well the big show is now over and the Hun is on the run but we still have censorship. So will have to confine myself to things non-military. I would like to know how many days they have in a year that it does not rain in this part of the old world, for it sure has been working overtime since I have been on this side of the pond. There are quite a few of the boys of the I. B. E. W. in this Battalion from different parts of the country, and none have seen a worker since we have been here. Sure would be an enjoyment hard to beat to get hold of one. I see by the papers that some 10,000 American Soldiers have married here in France and some of them will not return to the States. Funny how the climate will effect some people's mind. Must all been hitting the vin Blanc to hard. If I ever thought that this country had anything on the U. S. A.. I have seen enough of it to change my mind. I see the fall elections are over now and I am still wondering what kind of powders they slipped in some of the voters drinks to make them elect. Some men that they did, also I see the prohibition fanatics have been getting in some of their best work. Since so many wet votes are over doing their bit, while they sit back home and warm the chairs and vote the country dry. We may not be all dry in the army or all wet, but a good American glass of beer would go pretty good to many over here, when they get back. Would be glad to hear from any of the boys back there especially around Peoria, Editor:

Just a few lines from "No Man's Land"
which may interest the brothers. Have
been in France since last June and have
had many varied experiences since then,
good times and bad times, but I will eliminate the bad ones as everyone has enough
troubles of their own to listen to any of

mine.
Well the Armistice has been signed as you probably know by this time and it will

be a relief to the boys as dodging whizz-bangs is very trying on the nerves. As a whole I have had a pretty fair time this summer, playing baseball most of the time and will state we won the pennant in this area.

in this area.

I am with the Canadian Engineers, but I think we will change that to Yankee Engineers as they are the majority in this unit. Am using a Worker for a writing pad which was sent to me from Local 39 to which I belong and it is the second one I have received since I have been in the service, some one is very slack.

I kind of envy the boys back home when I hear of the jack they are making, but

I kind of envy the boys back home when I hear of the jack they are making, but I suppose there will be some left when we get back. Forty francs a month is what we get out here a few drinks and it is gone, no chance to get drunk. A franc is about 20 cents of our money.

Have read a brothers letter about indentification dises for the brothers in the service, just tell him any "Fritzie" will make one for a package of "fags"

Will close with best regards to all Yours fraternally,

As the first step in the direction of putting an end to the flagrant suppression of the right of assembly in the towns along the Monongahela River, where the city officials, to help check the campaign to organize the iron and steel industry, have prohibited all labor meetings, President Gompers has sent the following letter to the mayor of McKeesport, Pa.:

"Washington, D. C., Dec. 4, 1918. "After my return from Europe, where with others I undertook a mission in the performance of a duty in the interest of the common cause in which our country and our allied countries were engaged. and meeting then with the representatives of the Central and South American countries, where the effort was made to establish and maintain more friendly relations among the people of all the American republics, I come to the office of the American Federation of Labor, and here a committee of representative labor men-men of standing in their respective communities-come to me with the information that you have refused them permission to hold a meeting or meetings in the halls of McKeesport.

"They placed before me two clippings from the Pittsburgh Leader of December 1st and from the McFeesport Daily of November 26, 1918, both of which newspapers contain accounts of the appearance of the gentlemen whom I have in mind and others, of a meeting held with the city council of McKeesport, the purpose of the bearing being to obtain an expression of opinion from the city council that public lawful meetings might be held, and that you declared that you would not change your attitude or your course; that you would profibit the meetings as already indicated.

"Permit me to say that the meetings

contemplated to be held and permission for which was asked, were to be meetings of working men, inviting other men to participate and to discuss questions of importance affecting their interests, their welfare, and to discuss them in a manner always recognized as purely American. The laws of our land not only permit, but guarantee, the right of the holding of such meetings. I can readily understand that when our country was at war, when our cause might be endangered by reason of certain classes of meeting that as a matter of war necessity a stricter interpretation and action might find some seeming justification; but for all practical purposes the war is over. We have won a glorious victory and labor has contributed no mean part to that result. But in any event, meetings of the character contemplated to be held in McKeesport are of a nature permissible, whether we are at war or at peace.

"It is the lawful and the moral right for working men to meet in McKeesport or elsewhere. In this instance it is contemplated to lay before the workers of your city the advisability of their associating themselves for their mutual and common interests and for the uplift of their material, economic, moral and political standards, that such gatherings are not only lawful and constitutional, but are based upon high moral grounds and contributing to the welfare of our people. The contemplated meetings are the normal American method of discussing, citizen with citizen, man with man, the manner and method by which rights may be attained and wrongs remedied.

"The American Federation of Labor, under whose auspices these meetings are sought to be undertaken, has demonstrated its services to our government and to our people, not only during the periods of international peace, but during the crucial time of the war. We have the right to have accorded to our Federation, to our organizations and to our men the ordinary guaranteed rights enjoyed by other groups and associations of people in the United States.

"Viewing the situation in many lands today, I submit that this, of all periods. is not the time when any autocratic domincering attitude should be assumed by any government or public official. This is the time when rights are being contended for. This is the time when a larger conception of human justice and human liberty are to prevail, and I commend to your very serious consideration not only the injustice, but the very hazardous attitude which you have assumed in denying the right and the opportunity for free open meetings as requested by the committee to which I have referred.

HEY sing the same song, feed in the same fields, and prey on the same crops, and also speak the same language, much they say is true, the balance we leave to you.

The "Big Elec"tric manufacturers who control many of the Association Jobbers by a system of large profits and small collections, have caused the parting of the contractor and his hard earned profits.

Our System which serves a Nation instead of a community, selling for cash instead of credit, using "Uncle Sam" instead of a salesman, concentrating on staples and using a monthly price list instead of a catalogue like Webster's Unabridged, and a warehouse like Noah's Ark, has resulted in low operating cost, and
